

# CREATIVE PLANNING

Title: Software Architect

Department: Application Development

Location: Overland Park, KS

Job Description: The Software Architect leads the design and evolution of our enterprise platforms and applications. This role is ideal for someone who brings deep technical expertise and a collaborative spirit. This is an instrumental role in defining architectural standards, evaluating technologies, and guiding development teams across critical initiatives.

***We do not accept resume submissions from third-party recruiters or staffing agencies. Please contact our recruiting team directly.***

## Responsibilities

- Support and enhance custom-built internal applications, ensuring they evolve with business needs and technical standards.
- Architect and Design scalable, secure, and high-performance software solutions across environments.
- Collaborate with stakeholders to translate broad and sometimes evolving business requirements into robust software designs.
- Evaluate and integrate third-party platforms, especially with a focus on Orion portfolio management systems and financial data platforms.
- Establish architectural standards and documentation for code quality, security, and maintainability.
- Review code and designs to ensure alignment with architectural principles and performance goals.
- Lead initiatives around system modernization, cloud enablement, and platform scalability.
- Support application lifecycle processes and influence technology decisions across the enterprise.
- Provide mentorship to the development team.

## Qualifications

- Bachelor's degree in computer science or computer engineering.

- Experience with the Azure cloud platform.
- Experience with .NET and SQL.
- Strong DevOps knowledge including CI/CD pipelines, version control, and automated deployments.
- Deep understanding of system integration, API architecture, and cloud-based design principles.
- Excellent communication skills and experience collaborating across business and technical teams.
- Strong attention to detail.
- Ability to work with broad and evolving requirements.
- Ability to work in a fast-paced environment.
- Ability to work independently and collaboratively in a team environment.
- Commitment to teamwork and excellence.
- Motivated and results oriented.
- Available to work outside of normal business hours when required.
